

E-Line: Low Cost GPS Trackers

EV02 (2G) Vehicle tracker:

- Size: 71 x 30 x 10mm. Weight: 30gr (battery included)
- EGPRS 2G modem
- Location by GPS and LBS (GSM base cell)
- 1 ACC Input (+15)
- 1 Negative Output controllable by remote (40Amps built-in relay relay)
- Wide range power supply - from DC 9 to 90V (compatible with full-electric vehicles)
- Movement sensor
- 55mA rechargable mini-backup battery
- Mini SIM card supported
- Packing list: 1,30MT P/I/O cable with built-in socket relay + relay bulb included (DC 12V or 24V)
- CE under RED Directive certification

EV02H (2G) Vehicle tracker:

- Size: 74 x 34 x 12mm. Weight: 30gr (battery included)
- EGPRS 2G modem
- Location by GPS and LBS (GSM base cell)
- 1 ACC Input (+15)
- 1 Negative Output controllable by remote (40Amps built-in relay relay)
- Wide range power supply - from DC 9 to 90V (compatible with full-electric vehicles)
- Movement sensor
- 55mA rechargable mini-backup battery
- IP65 waterproof casing
- Mini SIM card supported
- Packing list: 1,30MT P/I/O cable with built-in socket relay + relay bulb included (DC 12V or 24V)
- CE under RED Directive certification

GS10G (4G) Vehicle tracker:

- Size: 79,5 x 42 x 12,5mm. Weight: 50gr (battery included)
- EGPRS/4G LTE modem
- Location by GPS and LBS (GSM base cell)
- 1 ACC Input (+15)
- 1 SOS button (N.O. contact)
- 1 Microfono input (optional)
- 1 Negative Output controllable by remote (40Amps built-in relay relay)
- Wide range power supply - from DC 9 to 90V (compatible with full-electric vehicles)
- Movement sensor
- Voice wiretapping (optional microphone)
- 250mA rechargable backup battery
- Micro SIM card supported
- Packing list: 1,30mt P/I/O cable with built-in socket relay + relay bulb included (DC 12V or 24V) + 2mt SOS cable
- CE under RED Directive certification

S20 (4G) Magnetic tracker:

- Size: 79 x 49 x 33mm. Weight: 170gr (battery included)
- EGPRS/4G LTE modem
- Location by GPS and LBS (GSM base cell)
- Magnetic basement for easy fixing
- Temperature sensor
- Light sensor

- Movement sensor
- Voice wiretapping (built-in microphone)
- High capacity 5800mA rechargeable battery (about 20 days)
- Reports: real time Tracking, Battery low, Over-speed limit, Movement, Light sensor detection, Geo-fence (by Server setting)
- Micro SIM card supported
- Packing list: 1MT micro-USB charging cable + AC Charger
- CE under RED Directive certification
